

Laboratory Technician / Analyst Opportunity

Northern Lake Service, Inc.

www.nlslab.com

The Company: Northern Lake Service, Inc. (NLS) is a growing environmental laboratory located in Northern Wisconsin. NLS was started as a tiny office and lab room at the end of the family garage. In 1980, NLS moved into a historic old building in beautiful downtown Crandon, WI. More than three decades, three major additions, and a generation later, the modern facility is home to a company that sets the standard for environmental lab services in the Midwest. The current NLS staff consists of over 35 seasoned chemists, analysts, technicians, and support staff whose average tenure with the company is more than ten years.

The Location: Crandon, WI, is situated in the heart of the beautiful Chequamegon-Nicolet National Forest with over 1.5 million acres to explore. The forests, rivers, and lakes offer tremendous outdoor recreational opportunities throughout the seasons. In addition to fantastic recreation, Crandon is a small but strong community with a great school system, festivals, and family-friendly activities.

Job Description: As a Laboratory Technician / Analyst, you will be responsible for the setup, operation, and maintenance of laboratory instruments ranging from basic to complex. Including, but not limited to glassware, scales, vacuum pumps, autosamplers, extractors, HPLC, and ICP-OES. All sample preparation, performance of required extractions, chemical analysis, and data entry will be required.

Ideal Candidate: As an ideal candidate, you will have a minimum associate or bachelor's degree with commensurate knowledge of scientific principles and instrument operation experience. You will be willing to grow within the department by learning to operate multiple types of instrumentation and be a team player focused on quality and safety. You will have the opportunity to build a strong technical background along with contributing to the overall success and operation of the laboratory.

Requirements: A minimum associate or bachelor's degree with commensurate knowledge of scientific principles and instrument operation experience. Must be willing to work as both a part of a team as well as independently at times. Must be able to operate within a Windows operating system along with Microsoft Word and Excel programs. Must be willing to relocate for the position.

Compensation: This is a full-time hourly position with flexible hours. Pay will be dependent on experience. A competitive benefits package including paid time off, sick leave, 401k match, health insurance, and profit sharing is available.

Application Process: Submit a resume and cover letter to resumes@nlslab.com. The hiring process may involve a combination of both phone and in-person interviews.
